

Do you want to take control of your health? Are you interested in convenience? Do you wonder what your lab values are between doctor visits?

You can now order several lab tests without visiting the doctor. The high-quality testing is done in the Sanford Health Wahpeton Clinic.

Direct ACCESS Laboratory

Testing helps you:

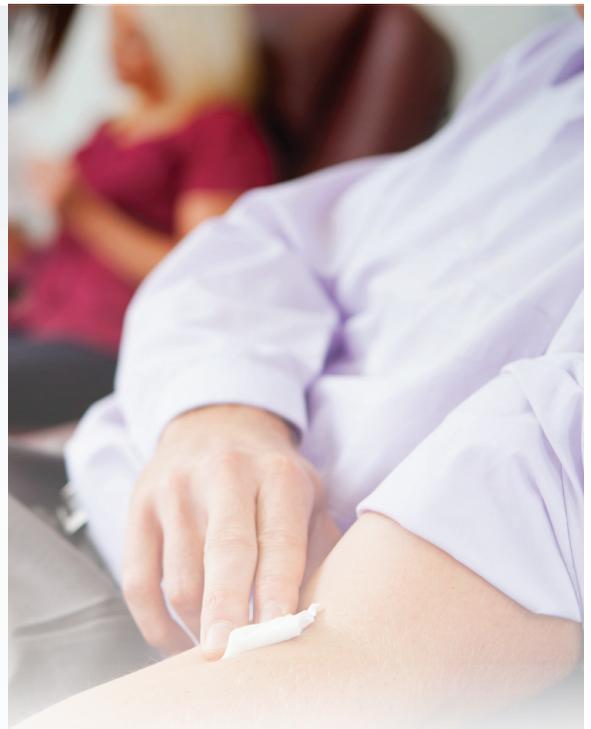

- Watch ongoing health problems such as your blood sugar or cholesterol level
- Check for possible health risks such as anemia or a bladder infection

The lab tests are a helpful tool. They are not a substitute for visiting your doctor.

Sanford Health is not responsible for any
problems caused by you having lab tests
without seeing a doctor. You are responsible
to connect with your doctor to talk about
the lab results, and follow any treatments
that are suggested. Unsafe laboratory
values will be sent to My Sanford Nurse. The
nurse will contact you using your medical
record contact information. You will be
responsible to follow up with your provider.
